Superjack

Before you begin identify the following buttons on the remote control for the satellite
receiver:- **Menu, exit, OK, the up-down and left-right buttons,
and the red, green, yellow and blue buttons.**

Switch on the satellite receiver and TV as you normally would to watch one of the channels:–
now you are ready to begin:-

Note:- When you 'select' an item on the on-screen menu it will be a different colour to the other
items

To scan in the channels:-

1. Press the **menu button** and use the left or right buttons to highlight the 4th box from the left (Installation)
2. Select **Channel Search** with the **up** or **down** button and press **OK**
3. Press **down** button to highlight **Transponder**
4. Press the **red** button
5. Press the **down** button to highlight **Frequency** and type in "**12706**"
6. Press the **down** button to highlight **Symbol Rate** and type in "**22500**"
7. Press the **down** button to highlight **Polarization** and the **left or right** button to select **VER**
8. Press the **Down button** to highlight **Search mode**
9. Press the **Left or Right button** to select **FTA**
10. Press the **Down Button** to highlight **Search 1 Sat**
11. Press the **Left or Right button** to select **Search Network**
12. Press **OK**
13. When the search is completed press **OK**

To organize the channels:-

1. Press the **menu button** and use the left or right buttons to highlight the first box on the left – **Channel Manager**
2. Select **TV Channel** with the **up or down** buttons and press **OK**
3. Use the **up or down** buttons to select the channel you wish to move
4. Press the **yellow button** and press **OK**
5. Press the **up or down buttons** to move the channel to where you want it and press **OK**
6. Repeat steps 3 and 5 for each channel you want to move.
7. When completed press the **exit** button twice

If you have another brand of satellite receiver, these are the new parameters for Optus D2
that will need to be entered in to your satellite receiver.
